Producing drawings Standard Drawing Sheets

An engineering drawing is a type of technical drawing that is used to convey information about an object. A common use is to specify the geometry necessary for the construction of a component and is called a detail drawing. Usually, a number of drawings are necessary to completely specify even a simple component.

Engineering drawing - Wikipedia

This allows an engineer to affix a computer-generated seal and an electronic signature to an engineering work. This may then be submitted either electronically or in printed form. This does not prohibit an engineer from placing an original wet seal or seal impression, and/or an original signature on any engineering work.
